

WELLNESS

The Board recognizes the importance of proper nutrition and developmentally appropriate physical activity as ways of promoting healthy lifestyles, minimizing childhood obesity, and preventing other diet-related chronic diseases. The Board also recognizes that health and student success are interrelated. It is, therefore, the goal of the Board that the learning environment positively influences a student's understanding, beliefs, and habits as they relate to good nutrition and physical activity.

This policy outlines the District's approach to ensuring environments and opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. This policy applies to all students, staff and schools in the District.

I. DISTRICT WELLNESS COMMITTEE.

The Superintendent, in consultation with the Director of Food Services, will facilitate development of updates to the District Wellness Policy, subject to School Board approval, and will oversee compliance with the policy. In addition, the Superintendent shall designate a Building Wellness Coordinator for each school to help ensure compliance with this policy at the building level.

The Superintendent shall convene a representative "District Wellness Committee" (or "Wellness Committee"), whose functions will include review and recommendations regarding implementation of and updates to this policy, and establishment of specific goals for nutrition promotion, education and physical activity.

The Superintendent or his/her designee shall serve as the Chairperson of the District Wellness Committee, and shall maintain an updated roster of Building Wellness Coordinators and other persons serving on the Committee.

The District Wellness Committee shall meet no less than three times per school year.

The District Wellness Committee should represent each school and the diversity of the community.

As a statutory committee, the Wellness Committee shall comply with the requirements of RSA 91-A regarding meetings.

II. WELLNESS POLICY IMPLEMENTATION, MONITORING, ACCOUNTABILITY AND COMMUNITY ENGAGEMENT.

III.

A. Implementation Plan.

Each Building Wellness Coordinator, with the assistance of the Wellness Committee, will conduct a school level assessment based on the Centers for Disease Control and Prevention’s School Health Index, using tools available through such programs as the Alliance for a Healthier Generation [Healthy Schools Program](#), and to create an action plan and generate an annual progress report. The school-level assessment/report should be completed by September 30th of each school year and provided to the Superintendent.

B. Triennial Progress Assessments.

Waiver 7: Local School Wellness Policy Triennial Assessment [42 U.S.C. 1758b(b) and 7 CFR 210.31(e)(2)] (July 1, 2022 – June 30, 2023)

Based on the July 1, 2017, implementation of the local school wellness policy regulations, the first triennial assessments were due June 30, 2020. On April 2, 2020, FNS issued a nationwide waiver delaying the deadline for the first triennial assessment to June 30, 2021, and on June 11, 2021, FNS issued a nationwide waiver delaying the deadline for the first triennial assessment to June 30, 2022. FNS recognizes that States and schools continue to devote additional resources to pandemic recovery and the transition back to normal operations. Due to this ongoing pandemic response and recovery, the resources required to meet the upcoming Local School Wellness Policy triennial assessment deadlines are better spent planning for the upcoming school year and ensuring that students are fed. Pursuant to the Section 12(l) waiver authority cited above, FNS waives, for Program operators the above referenced statutory and regulatory requirements and provides a new first triennial assessment deadline of June 30, 2023. Accordingly, LEAs required to complete a triennial assessment by June 30, 2022, may choose to accept the new regulatory deadline and instead complete their first assessment by June 30, 2023. These LEAs then would complete a second triennial assessment by June 30, 2026. FNS recognizes that some LEAs may be prepared to complete their triennial assessment by June 30, 2022 and encourages those that are prepared to do so to complete their assessments on time.

C. Recordkeeping.

The Superintendent will retain records related to this Policy, to include at least the following:

- The District Wellness Policy;
- The most recent assessment on the implementation of the local school wellness policy;
- Documentation on how the District Wellness Policy and Policy assessments are/were made available to the public;
- Documentation confirming annual compliance with the requirement that District Wellness Policy, including updates, and the most recent assessment on the implementation of the Policy have been made available to the public; and
- Documentation of efforts to review and update the District Wellness Policy; including who is/was involved in each update.

D. Community Involvement, Outreach and Communications.

The District will inform parents/guardians of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in School nutrition standards. The Food service Director provides videos that are posted on the schools web sites.

IV. NUTRITION.

A. School Meals.

All schools within the District participate in USDA child nutrition programs, including the National School Lunch Program (NSLP) and the School Breakfast Program (SBP). District schools are committed to offering school meals that:

- Are accessible to all students;
- Are appealing and attractive to children;
- Are served in clean and pleasant settings;
- Promote healthy food and beverage choices; and
- Meet or exceed current nutrition requirements established by local, state, and Federal statutes and regulations. The District offers reimbursable school meals that meet USDA nutrition standards, which may be found at:

<https://www.fns.usda.gov/school-meals/nutrition-standards-school-meals>

B. Staff Qualifications and Professional Development.

All school nutrition program directors, managers and staff will meet or exceed hiring and annual continuing education/training requirements in the USDA professional standards for school nutrition professionals, which may be found at:

<https://www.fns.usda.gov/school-meals/professional-standards>

C. Water.

To promote hydration, free, safe, unflavored drinking water will be available to all students at every school throughout the school day, including mealtimes,

Students shall be permitted to bring water bottles to school that:

- (1) Are made of material that is not easily breakable;
- (2) Have lids to prevent spills; and
- (3) Are filled exclusively with water

D. Competitive Foods and Beverages and Marketing of Same in Schools.

“Competitive foods and beverages” (i.e., foods and beverages sold and served or marketed during the school day, but outside of the school meal programs) must meet the USDA Smart Snacks in School nutrition standards, which may be accessed at:

<https://www.fns.usda.gov/school-meals/smart-snacks-school>

These standards will apply in all locations and through all services where foods and beverages are sold, which may include, but are not limited to, à la carte options in cafeterias and vending machines.

Except as may be provided elsewhere in this Policy, any foods and beverages marketed or promoted to students on the school campus during the school day will meet or exceed the USDA

As the District, school athletic department, and parent teacher associations review existing contracts and consider new contracts, equipment and product purchasing (and replacement) decisions should reflect the applicable marketing guidelines established by the District wellness policy.

E. Celebrations and Rewards.

All foods offered during the school day on the school campus will meet or exceed the USDA Smart Snacks in School nutrition standards. Foods and beverages will not be used as a reward or withheld as punishment for any reason. The District’s School Nutrition Services will make available a list of healthy party ideas to parents and teachers, including non-food celebration ideas, and a list of foods and beverages which meet Smart Snack nutrition standards.

F. Food Sale Fundraising.

Foods and beverages that meet or exceed the USDA Smart Snacks in Schools nutrition standards may be sold through fundraisers on the school campus during the school day. Fundraising groups are encouraged to choose non-food fundraisers, and to consider healthy fundraising ideas. Notwithstanding this provision, each school may allow up to nine bake sales or other fundraising food sales of non-compliant foods (i.e., that do not meet Smart Snack standards), which are no more than one day in duration each.

G. Nutrition Promotion.

The District will promote healthy food and beverage choices for all students throughout the school campus, as well as encourage participation in school meal programs. This promotion will include.

- Implementation of at least 1 or more evidence-based healthy food promotion techniques in the school meal programs using methods included in the Smarter Lunchroom Movement, which may be found at:

<https://www.smarterlunchrooms.org/scorecard-tools/smarter-lunchrooms-strategies>

- Ensuring 100% of foods and beverages promoted to students during the school day meet the USDA Smart Snacks in School nutrition standards. Additional promotion techniques that the District and individual schools may use are available through the Smart Food Planner of the Alliance for a Healthier Generation, available at:

<https://www.healthiergeneration.org/our-work/business-sector-engagement/improving-access-to-address-health-equity/smart-food-planner>.

H. Nutrition Education.

The District will teach, model, encourage and support healthy eating by all students.

- Nutrition education shall be included in the health curriculum so that instruction is sequential and standards-based and provides students with the knowledge, attitudes, and skills necessary to lead healthy lives.
- Nutrition education posters will be displayed in each school cafeteria
- Consistent nutrition messages shall be disseminated throughout the school.

V. PHYSICAL ACTIVITY.

The District will provide physical education consistent with national and state standards. Physical activity during the school day (including but not limited to recess, classroom physical activity breaks or physical education) **will not be withheld** as punishment for any reason.

A. Classroom Physical Activity Breaks.

In addition to any recess periods provided in the ordinary daily schedule, students will be offered **periodic opportunities** to be active or to stretch throughout the day. The District recommends teachers provide short physical activity breaks to students during and between classroom time at least three days per week. These physical activity breaks will complement, not substitute, for physical education class, recess, and class transition periods.

B. Before and After School Activities.

The District offers opportunities for students to participate in physical activity after school through interscholastic and intramural sports and clubs.

C. Walking and Biking to School.

The District will support walking or biking to school by students or faculty only if determined safe by the building principal.

VI. OTHER ACTIVITIES TO PROMOTE STUDENT WELLNESS.

The District will endeavor to integrate wellness activities across the entire school setting, not just in the cafeteria or physical education and athletic facilities. In furtherance of this objective, each school in the District will *identify at least one activity with a requirement to engage in one or more* each school year.

VII. PROFESSIONAL LEARNING.

When feasible, the District will offer annual professional learning opportunities and resources for staff to increase knowledge and skills about promoting healthy behaviors in the classroom and school (e.g., increasing the use of kinesthetic teaching approaches or incorporating nutrition lessons into math class).
